Australian Government Home Guarantee Scheme

Fact Sheet | 1 July 2025

What is the Home Guarantee Scheme?

The Home Guarantee Scheme is an Australian Government initiative that helps home buyers to buy a home sooner. The Home Guarantee Scheme supports home buyers who have saved a small deposit, and meet other eligibility criteria, to get a home loan to buy a home. There are three Guarantees available to suit different types of buyers.

How does it work?

Home buyers usually need a deposit of 20% of the Property Value to get a home loan, and those with a smaller deposit may require Lenders Mortgage Insurance (LMI).

Under the Home Guarantee Scheme, Housing Australia provides a Guarantee to the lender, so home buyers only need a 2% or 5% deposit depending on the type of Guarantee. This helps home buyers to buy a home sooner, with lower upfront costs.

Home buyers are responsible for meeting all costs and repayments for home loans associated with the Home Guarantee Scheme including but not limited to stamp duty, application fee and legal costs.

Check the property price caps

Maximum price caps apply and vary by location. Price caps are the same for all Guarantees. Both the purchase price and Property Value must not exceed the price cap for the property's location. For new builds with a vacant land and a separate contract to build a home, the combined land purchase price and build cost must also stay under the price cap.
