## 1. Changes to the terms and conditions

We may change the terms and conditions regarding your card.

We will give you at least 30 days prior notice (longer if we are required to by law or any code we subscribe to) if we:

- Change the daily card limit;
- Introduce or change a fee; or
- Increase your liability for losses in relation to transactions made with your card.

We will tell you all other changes no later than the day the change takes effect. We will tell you by either:

- Writing to you; or
- Advertising in a national or local newspaper; or
- Giving you notice in another manner allowed by law.

We are not required to give you advance notice if an immediate change to the terms and conditions is needed for the security of accounts or the processing of transactions.

## 2. When you receive your card

Once you receive your physical card and PIN in the mail you will need to:

- Sign the back of the card; and
- Activate the card.

## 3. Activate the card

If you are issued a Digital Card, the active status of your Physical Card will be the same as your Digital Card (even if you have not received your Physical Card).

A Digital Card is valid when it is issued to you, unless you are required to activate it - in which case the Digital Card will be valid when it has been activated by you.

To prevent fraudulent or unauthorised use of your Linked Account, a Digital Card will be issued with card controls in place to restrict its use. You can change these card controls but must ensure that you maintain the security of your device or account through which your Digital Card can be viewed or accessed.

You should carefully check transactions effected on your Linked Account. If you suspect that Unauthorised Transactions have been made on your Account, you must immediately notify us.

### To protect a Digital Card

in addition to protect a Digital Card:

- always keep your device on, or account through, which your Digital Card can be viewed locked when you are not using it;
- never lend your device on which your Digital Card can be viewed to any person or permit any other person to use your Device;
- if you use biometric recognition to access your device on which your Digital Card can be viewed, ensure that only your biometrics are stored in your Device;
- ensure that your passcodes and biometrics stored in connection with your device on which your Digital Card can be viewed remain secure at all times; and

- log out from any account through which your Digital Card can be viewed when you are not using it.

## 4. How to keep your card safe

We suggest you take note of the following tips to keep your card safe and prevent any unauthorised transactions from occurring:

- Never let your card, digital wallet or other electronic device leave your sight when paying for something – especially when overseas;
- Never give your PIN to anyone else;
- If you change the PIN for your card do not use identifiable numbers which could be easily guessed by someone else. Such as your birth date or phone number;
- Never write your PIN down;
- Monitor your account to make sure no unauthorised transactions have occurred, you can do this via Online Banking and Phone Banking, or your statement; and
- If your renewal card doesn't arrive as expected or you lose your card, you contact us as soon as possible.

## 5. Using the card

### Within Australia

You can use your card anywhere the Visa or Eftpos symbol appears however we cannot guarantee that all merchants or EFT Terminals will accept your card. We are not responsible if a merchant or another financial institution refuse to accept your card or have restrictions on the use of your card. Your linked account will be debited the amount of your purchase or withdrawal, these will not necessarily be processed on the same day as the transaction.

If the linked account is joint, you are jointly liable for transactions on that account.

### Outside of Australia

Before travelling overseas we ask that you let us know your travel details so we can prevent your card being blocked as a safety measure. We can then also provide you the relevant hotline of the country you are visiting should you lose your card while travelling.

You can use your card at some overseas terminals and merchants, any transactions made will be converted to Australian dollars by Visa International that generally reflect either wholesale market rates or government mandated rates.

Transactions overseas are also subject to a Cash Advance and Foreign Currency Conversion fee, these are detailed in our Fees & Charges brochure.

### Merchant Surcharges

In some instances you may also be charged a surcharge by the overseas merchants, ATM's and EFT terminals. The surcharge will apply once you have confirmed the amount of transaction. This surcharge may appear on your statement separately or as part of the entire purchase amount. Once you have confirmed the transaction you will not be able to dispute the surcharge amount.

### payWave

If your card has the payWave logo present, you will be able to make faster purchases, rather than swiping your card you will be able to tap your card, digital wallet, mobile phone or other electronic device against the contactless reader at a participating merchant.

If your purchase is under \$100AUD you can transact without entering your PIN. If it is over \$100AUD you may need to enter a pin.

## Authorisations

Some transactions on your card require our authorisation, meaning the merchant will ask us for authorisation before completing the transaction.

We have the right to deny authorisation if there is good reason, including but not limited to, insufficient funds in your account, security of your account or credit risk purposes.

We will not be liable to you or any other person for any loss or damage which you or other person may suffer as a result of an authorisation not being granted.

## Card expiry

Your card has a set expiry date, before this expiry date is reached we will automatically issue a renewal card to you via post. We will not do this if you are no longer using your card and we will cancel your card.

## 6. Transaction limits

Your combined ATM and EFTPOS daily withdrawal limit is \$1,000 AUD per card from your linked account when you have sufficient cleared funds including any pre-arranged credit facility. In some cases your daily card withdrawal limit may be altered.

In the event of a system failure the daily withdrawal limit is \$1,000 AUD. Other third party organisations may impose additional restrictions on the amount of funds that may be withdrawn, transferred or paid.

## 7. Fees and Charges

Details regarding any fees and charges applicable to your card or as a result of certain transactions using your card are detailed in the Fees and Charges for Deposit Accounts.
